INCREASE IN RECEIPTS OF VEGAS POSTOFFICE.

The postal receipts at the local post-office show a gain of 12 per cent over the month of November, 1908. The registry business from July 1 to November 30, increased ten per cent. This is a very good showing. The departmental report for the month ending November 30 reported an increase of only 6 per cent for the fifty largest offices in the country. The East Las Vegas postoffice's gain of ten per cent would indicate that this city is keeping pace with the larger cities in amount of business transacted.

charter of the company also provides that it shall build a line south from San Angelo to a point on the San Sabal river, twenty-six miles. It is also provided that a line shall be built from Miles, a station on the Lampasas branch of the Santa Fe, to Llano, a distance of about 135 miles. This line is also under construction. In addition to these lines the Santa Fe has also let the contract for the construction of a branch from Lometa to Brady a distance of about seventy miles.

Tuesday at Buckman, a siding on the Denver & Rio Grande railroad north of Santa Fe, an engine attached to the daily passenger train on the narrow gauge, was wrecked when its boiler exploded. The detonation shook everything in the immediate vicinity. The engine was standing at the water tank taking water when the accident occurred. H. H. Kinkaid, the fireman, was standing about fifteen feet away busily engaged with some work. The force of the explosion threw him a considerable distance while the escaping steam which enveloped his body scalded him badly. The unfortunate man was taken as quickly as possible to Santa Fe where his burns received proper treatment. Though seriously injured he is expected to live.

Wm. G. Lee, president of the Brotherhood of Railroad Trainmen sent from Chicago a telegram to President Taft assuring the chief executive that sensational rumors concerning a general strike were without foundation. Following is Lee's message. "In order that yourself and the public may know the truth I deem it necessary to state that the press reports indicate that a strike of the Brotherhood of Railroad Trainmen, and other affiliated organizations is threatened at this time as a result of the demand made for increased pay in the territory east of Chicago are absolutely without foundation. Whatever action is taken by the organization I represent will depend entirely upon the individual expression of the members through the general committee for the railways in the territory, and will be handled in

the usual manner. The demands of the train employees in train and yard service east of Chicago cannot take proper form even for deliberate consideration between the railway officials and their employees before the early part of 1910. All this talk about a strike of the brotherhood of railroad trainmen and affiliated organizations is absurd, and the membership of the organization fully realize it."
